PROFESSIONAL SKILLS

- React
- TypeScript
- SQL
- HTML
- CSS
- JavaScript
- Express
- Node
- MongoDB

PERSONAL SKILLS

- Project Management (Notion, Jira)
- Team Coordination
- Communication skills
- Interpersonal Skills
- Problem solving
- Critical thinking

TOOLS & TECHNOLOGIES

- GitHub
- Bitbucket
- Postman
- Swagger
- Thunder Client

PROFILE

Associate Software Engineer with over a year of experience in the field. Actively seeking to expand expertise by learning new technologies and tools. Passionate about advancing skills and knowledge to contribute effectively to software development projects. Committed to continuous personal and professional growth, with a focus on driving improvements in development processes and delivering high-quality solutions.

WORK EXPERIENCE

Associate Software Engineer

Shiftx Global, Colombo

April 2024 - Present

- Developed projects from scratch using React, TypeScript, and Material UI for a strong application foundation.
- Maintained existing projects by fixing bugs and implementing client-requested improvements using React, TypeScript, and Chart.js.
- Created and executed test scenarios to ensure software quality in both new and maintained projects.
- Documented bug fixes, enhancements, and test cases for clear client communication and future reference.
- Provided client support, ensuring they understood updates and changes in all projects.

Binary Technologies, Colombo

Associate Software Engineer

September 2023 - March 2024

- Identified and documented front-end bugs, wrote **comprehensive test cases**, and efficiently resolved issues to enhance application functionality.
- Suggested feature enhancements and application improvements, collaborating with the development team to refine ideas.
- Implemented approved features and improvements, ensuring seamless integration and optimal user experience.
- Maintained detailed documentation of bugs, fixes, and feature implementations to facilitate knowledge transfer and streamline future development efforts.

Front End Developer Intern

March 2023 - August 2023

- Identified and documented front-end bugs, **created test cases**, and fixed minor issues to enhance application performance.
- Collaborated with the development team, suggesting improvements to refine the user experience.
- Maintained detailed documentation of bugs, test cases, and testing outcomes to support ongoing development.

CERTIFICATIONS

API Testing Foundations

Understanding Manual Testing

Test Automation Foundations

DevTown Bootcamp for Front End Development (React.js and Javascript) by GDSC KIIT.

DevTown Bootcamp for Front End Development (React.js and Javascript) by DevTown.

DevTown Bootcamp React.js and Javascript Completion Certificate by Google.

DevTown Bootcamp React.js and Javascript Completion by Microsoft Learn Student Ambassadors.

General English by British Council.

PROJECTS

QNet Sapphire Application:

- QNet Sapphire is a streamlined reporting management tool that simplifies report generation and analysis, integrating multiple data sources for real-time insights and improved decision-making.

QFazit and QDataXfer Application:

- QFazit Manager is a Plant/Line management tool that monitors serial-specific details, including computer heartbeats and transmission data, ensuring efficient operational management.

RF Tag Tool Application:

- RF Tag Tool simplifies the configuration of memory maps for RF tags in machining and assembly processes. It allows users to arrange tag maps logically and view the physical data layout. The tool integrates with the QLS-CM system to populate database tables for shop floor downloads and generate reports like birth history.

UCO Web App :

- Worked as part of the development team to create a **React and TypeScript**-based mobile application using **Material UI libraries** to streamline and enhance the used cooking oil collection process in Malaysia.

Atlas World Website:

- Contributed to an online educational platform by fixing bugs and improving functionality using **React and TypeScript**.

Portfolio Project (Personal Project):

- Engineered a dynamic personal portfolio using **React, TypeScript, and SCSS**, showcasing technical proficiency, diverse projects, and accumulated work experience through an interactive and organized platform.
